

Parents and Guardians of **6th grade** students:

This is to inform you of new immunization requirements that will affect your student for the next school year. I wanted to make you aware of this requirement and give you ample time to get your student vaccinated. The new requirement is:

6th grade in fall of 2016 Need 1 Tdap

Once your student receives their updated immunizations please make sure to get a copy to the school office that includes your students name, vaccines received and the date that vaccines were received. Turn these copies into the school as soon as vaccines are received. You do not need to wait until fall.

Wisconsin State Statute 252.04 requires parents to have their children vaccinated or claim a waiver.

Please review the immunization chart to see the full list of required vaccines. Please check your child's grade level and the requirements for that grade. Please ensure that your student is up to date with their immunizations.

Please contact me if you have any questions. Thank you for your help.
